

Notes 1.2 - Particle Motion

* WARM UP *

What is velocity?

What is speed?

What is distance?

What is displacement?

Notes 1.2 - Particle Motion

Velocity -

1] The rate of change in distance with respect to time.

2] How fast and in which direction a particle is moving.

Speed -

The absolute value of velocity.

Distance -

How far an object traveled.

Displacement -

How far an object is from its initial position.
